

# WEEDTEX™

GEO FABRIC THAT WORKS

A standard duty weed control fabric offering very effective weed suppression for many different applications. WEEDTEX allows nutrients (including liquid feed and fertilisers), water and air into the soil to maintain its goodness and promote plant growth, whilst preventing weeds getting the daylight they need to grow. WEEDTEX is ideal for use as a weed suppressant beneath garden decking and decorative borders. It is recommended that a heavier duty fabric is used beneath aggregates/stone or areas subject to pedestrian traffic.

## INSTALLATION GUIDELINES

1. Prepare the area where the fabric is to be laid by strimming any existing vegetation down to ground level.
2. Remove any stalks or sharp objects that could pierce the fabric.
3. For areas badly affected by weed growth, apply a suitable weedkiller.
4. Lay the WEEDTEX fabric out and ensure joints are overlapped by a minimum of 100mm.
5. Secure using EXTRAFIX fixing pegs. The best way to secure the edges of the fabric is by 'spitting' or 'trenching' the fabric 100-150mm into the soil.
6. Cover the fabric with a layer of bark or other mulch by a minimum of 50mm.

## NOTES

1. WEEDTEX is a weed control fabric designed to suppress weeds, but does not eliminate the need for surface weeding as a result of seeds dropped by birds etc growing in the surface covering.
2. WEEDTEX will suppress most weeds but particular attention should be paid to very invasive weeds/grasses such as Mare's Tail, Bindweed, Crocosmia, Ground Elder, Couch Grass, nettles, brambles and some bulbs. A weedkiller should be applied first and then we would recommend laying a double layer of WEEDTEX or a double layer of the surface covering (e.g. min 100mm of bark) or both for severe areas.

## PRODUCT SIZES

CODE	PRODUCT	WIDTH	LENGTH	AREA
WWF1	<b>Mini Roll</b> - For smaller size projects	1.0m	15m	15m <sup>2</sup>
WWF2	<b>Mini Pack</b> - Wider width for larger areas	2.0m	10m	20m <sup>2</sup>
WWF10	<b>Midi Rolls</b> - For medium size projects	1.0m	50m	50m <sup>2</sup>
WWF20		2.0m	25m	50m <sup>2</sup>
WWF25		2.0m	50m	100m <sup>2</sup>
WWF100	<b>Maxi Rolls</b> - For larger size projects	1.0m	100m	100m <sup>2</sup>
WWF150		1.5m	100m	150m <sup>2</sup>
WWF200		2.0m	100m	200m <sup>2</sup>
